Vorwort !!

Alle,die mit einer neuen PSP Version (ab X3) arbeiten,
können nicht mehr so spielgeln,wie man es bis dahin kannte.
Dafür habe ich eine kleine Anleitung geschrieben,wie es
mit Skripsen geht. Schau HIER
Weil man bei den neuen PSP Versionen nicht mehr so einfach spiegeln kann.

mit dadurch die Arbeit schwerer gemacht wird und dir auch.
habe ich mich dazu entschieden,
nur noch mit den Skripsen zu arbeiten !!!!
Mach es dir auch einfach und installiere dir die Skripse !!

Wenn etwas verkleinert wird,dann immer ohne Haken bei "Alle Ebenen angepaßt",
andernfalls schreibe ich es dazu.
