Version 2

Alle,die mit einer neuen PSP Version (ab X3) arbeiten,
können nicht mehr so spiegeln,wie man es bis dahin kannte.
Dafür habe ich eine kleine Anleitung geschrieben,um es
mit Skripten geht. Schau HIER
Weil man bei den neuen PSP Versionen nicht mehr so einfach spiegeln kann,

ist dadurch die Arbeit schwerer gemacht wird und die auch,
habe ich noch dazu entschieden,
nur noch in zwei Farben zu arbeiten.
Hach es ist doch einfach und vielleicht dir die Skripte ?

Wenn etwas verkehrtest wird,dann immer ohne Gewähr !!Alle Themen umgepaßt*,

andenfalls schreibe ich es dazu.
