Double Click on the icon in your supplies folder to install this Preset in your Plugin.

Notes:

This Tutorial was created in PSP19

.... **other versions may need adjustment**

Some of the graphics may be from Free to Use sites or Share Groups.

If you are the creator of one of these please let me know so that appropriate credit can be given.

No infringement of copyright is intended or intentional.

Before opening PSP, download plugins and install

Some helpful information:

You can change the blend mode, opacity and drop shadow, as well as colourise the materials, according to the tubes/colours you are using.

When applying the Resize with the All Layers option checked, this will be informed in the tutorial, otherwise, apply the resize with this option unchecked.

Remember always to save your work.

Whenever you reduce an image, apply Adjust/Sharpness/Sharpen, to maintain the sharpness of the image.

Some tools or features have other names in earlier versions of the PSP.

© Vera Mendes	Tools:	Old versions:
	Pick Tool	deformation
	Horizontal Mirror	Mirror
	Vertical Mirror	flip

Please Note: Offset settings provided in this tutorial may vary according to size of your image.
Please adjust to suit.

The settings remain the same throughout this Tutorial unless otherwise stated.

Set your Foreground colour to #9da5cd
Set your Background colour to #5665ad

*Place Mask in PSP Mask Folder
Place Preset in Preset Folder*

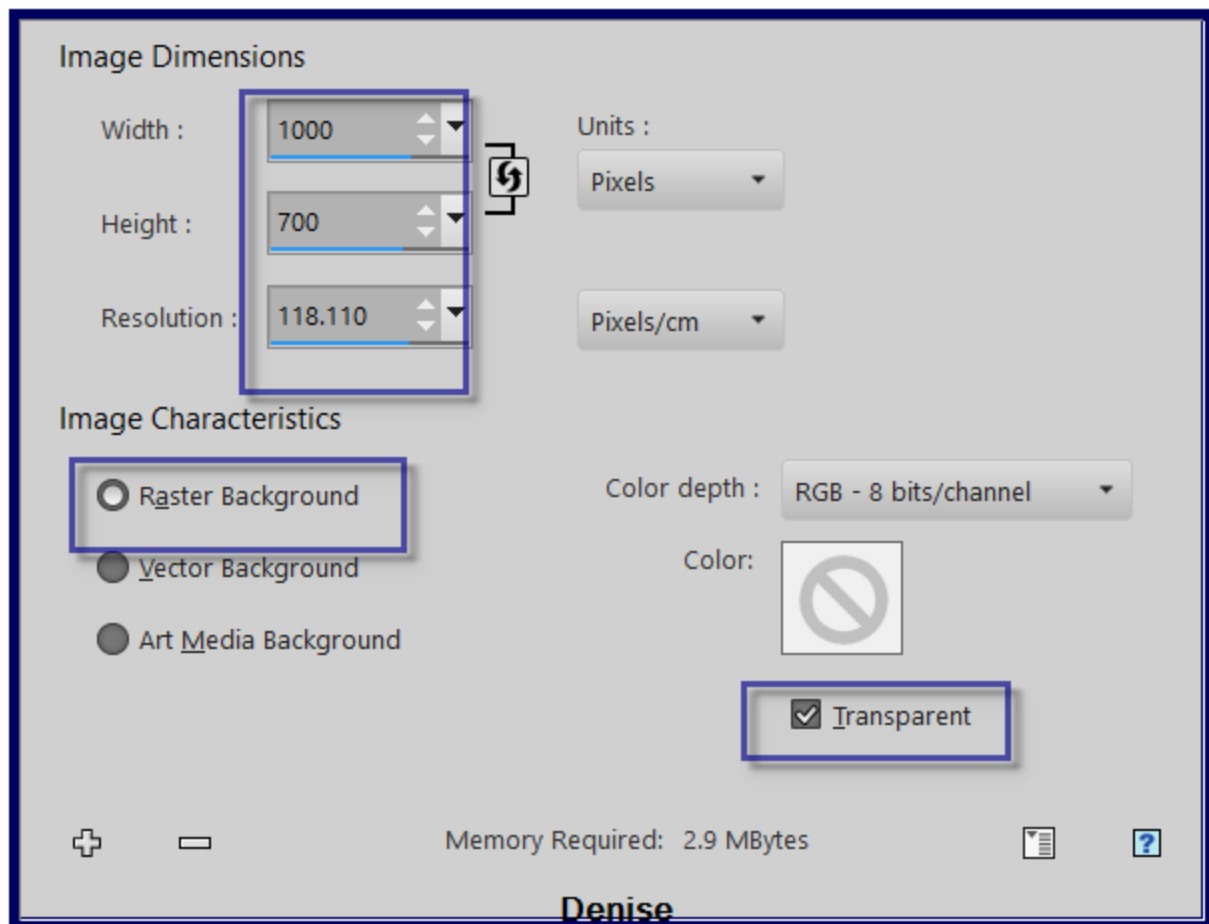

*Place Flexify2 Preset where you can find it
(I usually leave it in the Supplies Folder)*

If you are using the Selections, place Selections in PSP Selection Folder

Open graphics in PSP, duplicate (Shift D) and close the original.

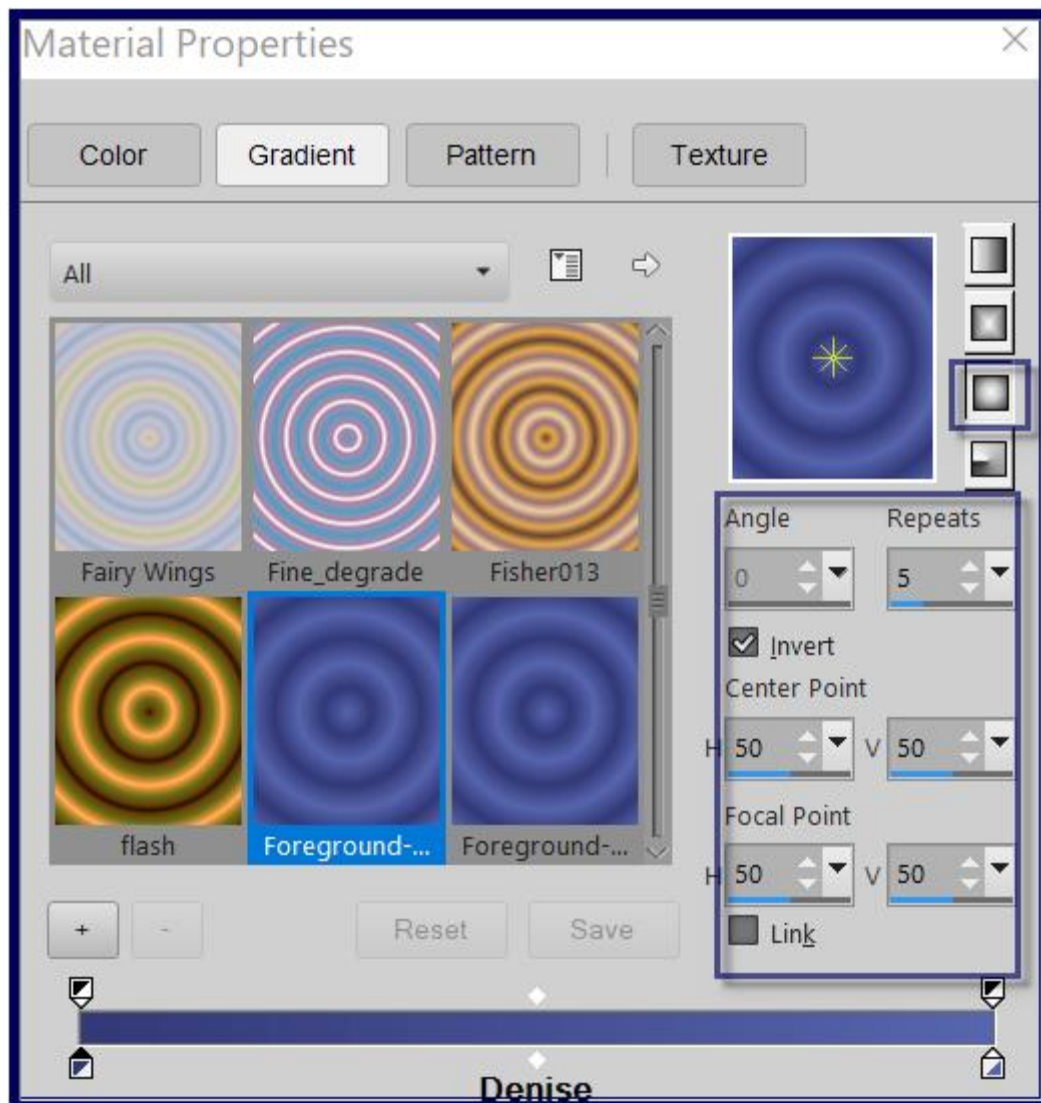

Open Alpha Channel
Duplicate and close Original
We will work on the copy where the selections are hidden

*If you are working with the Selections included in the Supplies.
Files/New/New Raster Layer 1000 pixels by 700 pixels as follows:*
