Double Click on the icon in your supplies folder to install this Preset in your Plugin.

**Notes:**

This Tutorial was created in PSP2020

.... **other versions may need adjustment**

Some of the graphics may be from Free to Use sites or Share Groups.

If you are the creator of one of these please let me know so that appropriate credit can be given.

No infringement of copyright is intended or intentional.

Before opening PSP, download plugins and install

***Some helpful information:***

*You can change the blend mode, opacity and drop shadow, as well as colourise the materials, according to the tubes/colours you are using.*

*When applying the Resize with the All Layers option checked, this will be informed in the tutorial, otherwise, apply the resize with this option unchecked.*

*Remember always to save your work.*

*Whenever you reduce an image, apply Adjust/Sharpness/Sharpen, to maintain the sharpness of the image.*

*Some tools or features have other names in earlier versions of the PSP.*
