Notes:
This Tutorial was created in PSP2020
.... <u>**other versions may need adjustment**</u>
Some of the graphics may be from Free to Use sites or Share Groups.
If you are the creator of one of these please let me know so that
appropriate credit can be given.
No infringement of copyright is intended or intentional.
Before opening PSP, download plugins and install

Some helpful information:

You can change the blend mode, opacity and drop shadow, as well as colourise the materials,
according to the tubes/colours you are using.

When applying the Resize with the All Layers option checked, this will be informed in the tutorial,
otherwise, apply the resize with this option unchecked.

Remember always to save your work.

Whenever you reduce an image, apply Adjust/Sharpness/Sharpen, to maintain the sharpness of the image.

Some tools or features have other names in earlier versions of the PSP.

Tools:	Old versions:
Pick Tool	deformation
Horizontal Mirror	Mirror
Vertical Mirror	flip

Please Note: **Offset settings provided in this tutorial may vary according to size of your image.
Please adjust to suit.**

The settings remain the same throughout this Tutorial unless otherwise stated.

Set your Foreground colour to #c0c0c0

Set your Background colour to #878787
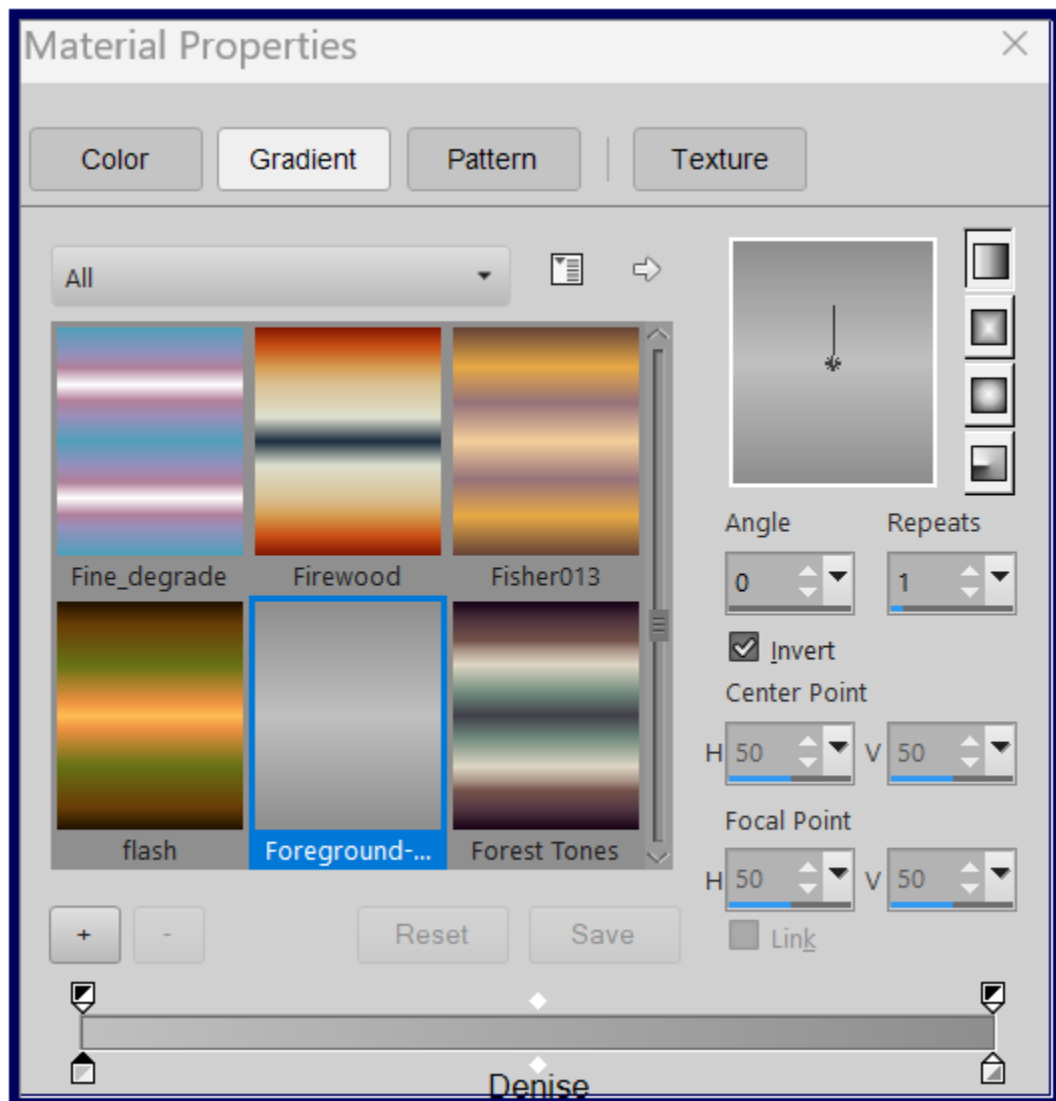

Step One:
Open Mask and minimise
Place Selections in PSP Selection Folder
Place Styled Line Preset in PSP Styled Line Folder
